TABLE I. Group qualification.

Group	Submission and qualification of any of the following connectors	Qualifies the following connectors
I	M39012/96-0001 M39012/96-0002 M39012/96-0003	M39012/96-0001, M39012/96-0004 1/ M39012/96-0002, M39012/96-0005 I/ M39012/96-0003, M39012/96-0006 I/

1/ Corrosion (salt spray) and contact resistance data must be submitted to DESC-EQP before qualification approval may be granted.

NOTE: If a connector manufacturer produces a connector which meets all the requirements for two or more connector types (within the same series), the manufacturer may receive qualification approval for the two or more connector types by qualifying the one connector. It is not necessary that such connectors be in the same group. Each connector, however, must be marked with its own appropriate part number.

Revision letters are not used to denote changes due to the extensiveness of the changes.
